Course Information

Certificate in Family Therapy and Support

OVERVIEW

Families are dynamic and complex social structures, and leave plenty of room for dysfunction. This course will help you better understand the principles used in family counselling, as well as the fundamentals of how families are structured and what problems may occur within families. It will also cover the various approaches to family therapy and discuss how solutions may be found. This course is well suited for anyone who wants to gain a broad understanding of family problems and how professionals may resolve them.
