Course Information

Certificate in Animal Care

OVERVIEW

Explore a career caring for something you love
Take this Certificate in Animal Care and learn about categories of animals, what constitutes a companion animal, and which occupations deal with animal care. You will gain an understanding of the five freedoms of animal welfare and discover and compare common structures of various mammalian bodies. Mainly focusing on feline and canine care, this animal care training includes husbandry, veterinary procedures, an overview of diseases and the socialisation and training of domestic animals. Enrol in the Certificate of Animal Care online to become the person you’ve always wanted to be.

- Relate the five tenets of animal welfare to real-world scenarios
- Investigate animal control laws & describe responses to emergencies
- Gain a fundamental understanding of animal care as a foundation for further learning
- Use this animal behaviour training as a stepping stone toward more specialised pathways
