Course Information

Certificate in Horse Care

OVERVIEW

Take a ride to the top of the class with better horse care

This Horse Care 101 course provides you with essential knowledge about horse groom duties, pasturing horses, what factors should be considered when looking for the right equine companion, and the basic elements of conformation terminology. Learn about horse care training, quartering, hoof care, and setting up an equine care business. Discover what constitutes whole farm planning, understand the survival mechanisms of early horses, explore horse dietary needs and how to apply equine psychology to handle your horse better. Enrol in our Certificate in Horse Care and plan a future that excites you.

- Learn about temperament & weight-carrying ability before you buy a horse
- Study financial management ahead of starting an equine care business
- Ideal for horse owners or those already working with horses
- Discover the commercial possibilities of horse ownership
